DESIGN AESTHETIC

Architectural prowess and tailored design elements converge at this iconic Phoenix resort. As one of the only existing hotels inspired by Frank Lloyd Wright, the 95-year-old resort just underwent a property-wide refresh, restoring its signature “Biltmore Block” and long-standing design to former glory. Stunning structural details are complemented by a range of intricate wood paneling, oxidized copper and gold-leaf ceilings, as well as original glass fixtures that bestow both transparency and privacy for guests. Whether gathering for an evening cocktail or sipping a morning coffee at the mosaic table, guests are immersed in a tailored experience for the entirety of their stays, with plenty of carefully curated vignettes and photo-worthy lounge areas available to them.

LOCATION

Nestled in the heart of Phoenix amidst palm trees and stunning mountain ranges at the base of the Phoenix Mountain Preserve, the Arizona Biltmore is a peaceful desert oasis spanning 39 acres of pristinely manicured landscape. The resort is less than 20 minutes from Phoenix Sky Harbor International Airport, and only a short trip from Downtown Phoenix and Old Town Scottsdale.
